Project Assist

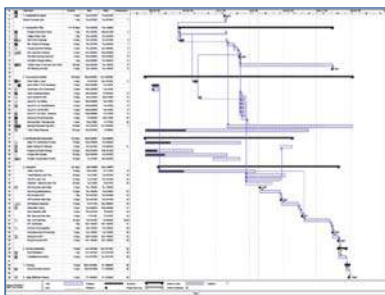

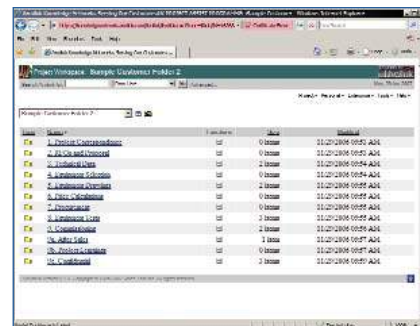

FILE NO:	81.15
DATE:	Oct. 3, 2007
SUPERSEDES:	New
DATE:	New

PROJECT ASSIST is a new collaborative work environment where we work together with our partners in "fast track" mode to exceed your customer's expectations.

The PROJECT ASSIST Shared Workspace

On-line document repository provides 24/7 secure access to all project documents. Team members can store and access files, meeting notes and reports.

The PROJECT ASSIST Master Schedule

Uses a scheduling system that establishes the timeline to be followed and establishes the critical path. Comprehensive progress reports formally document revisions to plans developed from the progress meetings.

By providing robust tools and disciplined, experienced project management, Armstrong will partner with you to reduce risk, minimize waste, and increase your profitability. For more information on PROJECT Assist, please contact your Armstrong representative.
